Empathy Map

Create an empathy map to understand the borrower from four perspectives: what they Say, Think, Do, and Feel.
 This helps the team build a user-centric AI solution for debt relief and financial recovery.

SAYS • My EMI is too high. • I need help managing my loans. • I want to reduce my debt.		THINKS • Which loan should I repay first? • Can I negotiate with the bank? • Will AI help me?
	PERSONA NAME Borrower (Loan Customer)	
DOES • Pays monthly EMIs. • Checks banking apps. • Searches for financial advice.		FEELS • Stressed about debt. • Worried about missed payments. • Hopeful for AI guidance.
