

Code-Layout, Readability and Reusability

Date	4 July 2026
Team Id	xxxxxx
Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability

This document evaluates the code quality of the AI Powered Debt Relief & Financial Recovery Platform. The project follows a clean and well-organized architecture with proper coding standards, meaningful naming conventions, reusable modules, and clear documentation. These practices improve readability, simplify maintenance, support team collaboration, and make the application easier to extend with new features in the future.

S.No	Parameter	Description	Followed	Remarks
1	Indentation	Consistent formatting	Yes	Good
2	File Structure	Frontend and Backend separated	Yes	Organized
3	Variable Names	Meaningful naming	Yes	Clear
4	Functions	Reusable methods	Yes	Good
5	Comments	Important logic documented	Partial	Core modules
6	Modular Design	Routers, Services, Models	Yes	Reusable
7	Redundant Code	Minimized duplication	Yes	Optimized
8	Error Handling	FastAPI exception handling	Yes	Implemented

Reusable Components / Modules

S.No	Component	Technology	Where Reused	Level
1	Authentication	FastAPI	Login & Registration	High
2	Loan Module	Python	Loan Management	High
3	AI Engine	Gemini API	Settlement Recommendation	High
4	Dashboard	React.js	Financial Dash board	Medium
5	Database Models	SQLAlchemy	Entire Application	High

Overall Code Quality Assessment

Aspect	Rating	Comments
CodeLayout & Structure	5	Wellorganized project folders
Readability	5	Simple and understandable code
Reusability	5	Reusable services and components
Documentation	4	Key functions documented
Overall Score	4.8 / 5	Follows professional coding practices
