Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	5 Marks

Solution Architecture Diagram

The Solution Architecture Diagram illustrates the overall structure of the AI Powered Debt Relief & Financial Recovery Platform. It shows how the Presentation Layer, Backend Services, AI Integration, and Database work together to provide secure loan management, financial analysis, AI-powered recommendations, and financial recovery support.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	Provides a responsive user interface for loan management, dashboards, and AI interactions.	React.js HTML5 CSS3 JavaScript
API Gateway	Routes client requests securely to backend services.	FastAPI
Core Services	Handles authentication, debt analysis, EMI calculation, settlement recommendations, and AI integration.	Python SQLAlchemy ORM Google Gemini API
Database	Stores user accounts, loan details, AI reports, and financial records securely.	SQLite
